

I listen to K-Love radio station 91.9 all the time, every day. I am concerned that I won't be able to tune into my favorite station if were to be displaced by an LPFM broadcaster. K-Love provides a unique, one of a kind programing that no one else in the area provides. We will have no unbiaed, commercial free Christian music in the area if we lose this station. I hope you consider this need when you make your decisions.
